

# PHYTOMORPHOLOGY

Official organ of

U. of ILL. LIBRARY

THE INTERNATIONAL SOCIETY OF PLANT MORPHOLOGISTS

APR 23 1973

## CONTENTS

CHICAGO CIRCLE

PAGE

|  |   |     |
|--|---|-----|
| Phylogenetic Significance of Megaspore Tetrad Patterns in Leguminales  | DAVID H. REMBERT, JR                    | 1   |
| Culture and Development of <i>Smithora naiadum</i>   | H. WAYNE NICHOLS & MILTON R. SOMMERFELD | 10  |
| Morphology of the Seed-Scale-Complex in <i>Pinus pinaster</i> subsp. <i>Atlantica</i> : A Teratologic Approach                           | M. GUÉDÈS & P. DUPUY                    | 17  |
| Phenology and Foliar Control of Floral Morphogenesis in <i>Prunus serotina</i>   | ROBERT E. FARMER JR & GERALDINE C. HALL | 32  |
| Ontogenetic Studies on Plant Galls. II. The Histopathology of the Roots of <i>Basella alba</i> Infected with <i>Meloidogyne javanica</i> | B. G. L. SWAMY & K. V. KRISHNAMURTHY    | 36  |
| Nucleus, Nucleolus, and Cytoplasm of Explanted <i>Rhoeo</i> Epidermal Cells Activated by Cytokinins                                      | H. W. KOHLENBACH & M. MEUSER            | 46  |
| Electron Microscopy Studies on Gametogenesis and Fertilization in Gymnosperms  | L. CHESNOY & M. J. THOMAS               | 50  |
| Contributions to the Floral Anatomy of Linaceae II.  | L. L. NARAYANA & DIGAMBER RAO           | 64  |
| Morphology of Tracheary Elements in <i>Marsilea</i> and <i>Pteridium</i>   | P. N. MEHRA & SARVJIT L. SONI           | 68  |
| Apomixis in <i>Blumea</i>  | M. S. CHENNAVEERAIAH & R. M. PATIL      | 71  |
| Histogenèse et Trachéogenèse des Régénérations de la Bulbille de <i>Cystopteris bulbifera</i>  | JEAN PIERRE AUQUIERE                    | 77  |
| Transfusion Tissue in Leaves of <i>Cephalotaxus</i>  | MILDRED M. GRIFFITH                     | 86  |
| Reviews  |   | 93  |
| In Vitro Development of Embryoids on Cotyledons of <i>Ilex aquifolium</i>  | C. Y. HU & I. M. SUSSEX                 | 103 |
| A Comparison of the Paleozoic Seed Genera, <i>Mitrospermum</i> and <i>Kamaraspermum</i>  | ROBERT W. BAXTER                        | 108 |

|   | PAGE |
|---|------|
| Development of Phloem in <i>Pennisetum typhoides</i>  | 121  |
| J. J. SHAH & P. DANIEL  |      |
| On the Value of Comparative Development in Phylogenetic Studies —<br>A Rejoinder  | 134  |
| DONALD R. KAPLAN  |      |
| Formation of Holdfasts, Callus, Embryoids, and Haustorial Cells in the<br>In Vitro Cultures of Dwarf Mistletoe <i>Arceuthobium pusillum</i> | 140  |
| J. M. BONGA   |      |
| Cytohistological Effects of Ethylene, 2,4-D, Kinetin, and Carbon Dioxide<br>on Peach Mesocarp Callus Cultured In Vitro                      | 154  |
| MURIEL V. BRADLEY & WAYNE J. DAHMEN   |      |
| Paleontological Evidence on the Morphogenic Development of Flower<br>Types  | 164  |
| E. E. LEPPIK  |      |
| Morphogenetic Studies in <i>Pterotheca falconeri</i>  | 174  |
| P. N. MEHRA & ASHA MEHRA  |      |
| Root Nodules of <i>Cajanus cajan</i> : Origin, Structure, and Ontogeny  | 192  |
| R. N. KAPIL & NIRMAL KAPIL  |      |
| Morphogenic Studies on Endosperm of Some Parasitic Angiosperms  | 202  |
| K. K. NAG & B. M. JOHRI   |      |
| Aestivation of Perianth of Palm Fruits  | 219  |
| T. ANTONY DAVIS & SYAMAL KUMAR BASU   |      |
| Effect of Gibberellic Acid on the Morphology, Histology, and Flowering of<br>Caster Bean ( <i>Ricinus communis</i> )                        | 235  |
| ASHA JUNEJA (née SATSANGI)  |      |
| Ectodesmata of <i>Smilax hispida</i> Stems  | 247  |
| E. L. ERVIN & J. SIKKEMA  |      |
| Allan Allsopp (1914-1971)   | 251  |
| J. COLHOUN  |      |
| Morphological Studies of Nymphaeaceae. VI. Development of Flower<br>of <i>Nuphar</i>  | 253  |
| MAYNARD F. MOSELEY, JR  |      |
| Overcoming Self-Incompatibility in <i>Petunia axillaris</i> . III. Two-site Polli-<br>nations In Vitro                                      | 284  |
| N. S. RANGASWAMY & K. R. SHIVANNA   |      |
| Morphogenic Variations in Callus Cultures Derived from Floral Buds and<br>Anthers of Some Members of Ranunculaceae                          | 290  |
| K. NATARAJA   |      |
| Deformation of Cell Shape and Pit Pattern in Roots of <i>Zea mays</i> under the<br>Influence of Colchicine and Heavy Water                  | 296  |
| OTTO L. STEIN, JOHN R. ROWLEY & JAMES A. LOCKHART   |      |
| Some Aspects of the Development of a Mite Gall of <i>Calystegia tugurio-<br/>rum</i>  | 308  |
| B. C. ARNOLD  |      |
| Observations on the Establishment of Seedlings of <i>Phoradendron californicum</i><br>on <i>Prosopis juliflora</i>                          | 313  |
| R. O. TINNIN, CLYDE L. CALVIN, RICHARD L. NULL & R. D. COWLES   |      |
| Vessels in Liliaceae  | 320  |
| VERNON I. CHEADLE & HATSUME KOSAKAI   |      |

|   |  |     |
|---|--|-----|
| Haploidy in <i>Lilium</i>   | W. R. SHARP, R. S. RASKIN & H. E. SOMMER | 334 |
| Remarques sur les Développement des Feuilles des Palmiers: Rapprochement avec d'Autres Monocotyledons   | M. BELIN DEPOUX & M. HERING DE QUEIROZ   | 337 |
| Interpretation de la Reproduction Sexuée des Angiospermes à la Lumière d'Organisations Gametophytiques et Embryonnaires d'Autres Arche-goniatés | M. FAVRE-DUCHARTRE                       | 353 |
| Precocious Germination of Pollen in <i>Lathyrus sativa</i> and its significance   | S. C. VERMA & S. S. GREWAL               | 362 |
| In Vitro-controlled Differentiation of the Root Callus of <i>Cyclosorus dentatus</i>  | P. N. MEHRA & HARINDER K. PALTA          | 367 |
| Periodic Variations of the Divergence Angle, Internode Length, and Leaf Shape, Revealed by Correlogram Analysis                                 | MASAO KUMAZAWA & MINEO KUMAZAWA          | 376 |
| Internodal Elongation, and Differentiation of Pith and Cortex in Brinjal and Chili  | J. D. PATEL & J. J. SHAH                 | 390 |
| Jean P. Nitsch (1921-1971)  | H. Y. MOHAN RAM                          | 400 |
| Reviews   |  | 403 |
